### TO WHOM SO EVER IT MAY CONCERN

This is to Certify that Prabhat Kids School of Prabhat Charitable Society, Akola, Maharashtra has followed all Safety norms while constructing school building. There is sufficient space for walking on staircases. Sufficient light enters in every class room, toilet, lavatories, laboratories, and library etc. During or at the time of Natural Calamities (Disaster) such as Earthquakes all students can go safe from the building within 3 min. on open ground. Before constructing all tests such as Earthquake, Soil, Pillar condition & strength are done to ensure future safety of school building.

Thanking You
